

Ready, reliable and right on the money

Who are HC-Forklifts-UK?

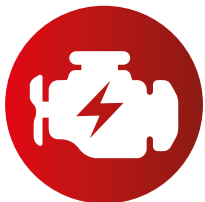

As the UK's exclusive distributor for one of the world's leading lift truck manufacturers, Hangcha, HC-Forklifts-UK offers an extensive range of quality materials handling equipment, from 1 – 16 tonne capacity. Boasting superb value for money, our entire range of equipment is supplied by a UK dealer network, which has helped HC-Forklifts-UK become one of the fastest growing materials handling distributors in the UK.

Who are Hangcha?

Established in 1956, Hangcha have now established themselves as one of the world's leading forklift suppliers, producing over 100,000 units per annum at one of the largest forklift factory's in the world – it's the size of 57 football pitches! HC-Forklifts-UK is just one of 70 carefully chosen importers of Hangcha equipment around the world.

What's in it for me?

High performing engines

Built to the highest standards, all engines are fitted with Yanmar, Nissan, Perkins or Cummins engines, and meet current EU exhaust emission requirements.

Low cost maintenance

The full range of HC-Forklifts-UK equipment is designed to keep your maintenance costs to a minimum, which is why they do not require any specialist equipment to maintain them.

Well-known transmissions

With high performing MS, Okamura or advanced transmissions fitted to our trucks, we specify transmissions which our customers are familiar with.

Extensive supply of trucks

We have an extensive stock of quality, reliable trucks which are available in the UK for immediate delivery to our HC dealers, whilst offering full technical support.

Batteries

All HC electric trucks are fitted in the UK with highly efficient Curtis AC technology and come with a UK specification battery.

Fast moving parts

The HC-Forklifts-UK parts centre at Corby, Northamptonshire supplies the HC dealer network with readily available, genuine Hangcha forklift parts.

A range of solutions

With a growing reputation for outstanding value for money, HC-Forklifts-UK offers an extensive range of materials handling equipment, providing a solution for your everyday requirements.
